Overall, how did the program meet your expectations for service(s) you received?

Exceeded my expectations Met my expectations Did not meet my expectations

Please explain:

This program was incredibly helpful - I feel that I was given a good source of guidance and accountability that made me much more confident in my own job search.

Why did you sign up to participate in this program originally and were your original expectations met?

I originally signed up with this program because I was struggling with my own decision-making. In particular, I had a hard time committing down one career path if I didn't feel 100% sure that it was the right fit for me. An important lesson I learned through this program is that there isn't always one right answer for myself - and the only way I could move forward was by picking one of my options and giving it the necessary time and energy to see where it'd lead me.

How do you feel the strategies you learned will help you as you continue in your career?

I believe this program will help me down the road when I need to make difficult decisions for myself down the road in my career. Whether it is considering a promotion, a new job, or changes in routine, I have learned methods to organize my thoughts and take the plunge down one road, even if I'm not 100% certain that it is the correct choice in the moment.

How did you feel your résumé compares with other résumés you have seen?

I am very pleased with my resume and think it was expertly crafted - I learned a lot about what keywords and phrases are most important to seeking employers, and ordering information in a way that highlights the type of job I'm looking for.

What did you enjoy best about your experience (the weekly coaching sessions, new resume, TST Networking meeting, Monday Motivational emails, connecting with recruiters, Job Seeker Spotlight video)? Why? Please be specific.

My most enjoyable parts of this program were my weekly coaching sessions, TST group meetings, and connecting with recruiters. Sessions with Cathy and the TST both gave me good advice and support for setting goals in my day-to-day performance. Reaching out to recruiters was also good practice for me to expand out of my comfort zone to talk about my career interests with other people (and networking!)

Where there any parts of your experience in this program that you did not enjoy or believe could be improved?

I think there could be improvements to how I distributed my resume + profile out to other people and recruiters, in particular. I had some technical difficulties during this process, and mostly stuck to using LinkedIn and personal meet-ups to network and share my resume.

Would you recommend this program to a friend or fellow jobseeker? Yes! Why? Or Why not?

I always felt comfortable reaching out to Cathy for help, and appreciated her dedication when it came to checking up on me, and providing a source of accountability. Her drive and motivation is contagious, and it helped me immensely in taking steps that I'd normally hesitate on.

Please provide your overall feedback and thoughts about the program and partnership you received and the part it played in your successful job search (coaching, résumé, networking, offer negotiation, etc):

Overall, I have extremely high praises for Cathy and this program - I especially appreciated the fact that I'd be given all of the support I needed until I landed a job. While the role I landed is a contracted position, the specifications for this job fits in line with almost everything I wanted when discussing my goals with Cathy. I sum up the success of this program due to two parts: One, which is the excellent career counseling services; Two, the connections and people I met through Cathy's massive network which eventually led me to finding my own employer. The results of this program depend greatly on your own contributions and efforts; while I did not always meet my own weekly set goals, I achieved much more than I would of on my own. The program gives insight, opportunities, and provides accountability for my own actions - it can sometimes be stressful looking for a job, but I feel like my efforts were worth it!

Thank you for taking the time to share your feedback!
